Description

A nice miniature timepiece made in Birmingham circa 1899. The solid silver case is spot hammered on all sides, with circular Roman numeral dial and delicate hands, standing on small bun feet with 'C' scroll carrying handle to the top. The French brass movement with platform escapement runs smoothly and is powered for 7 days when fully wound. Hallmarks can be found on the handle and on the lip of the case covered by the hinged door to the back.
