## Silver Cyma pocket watch, chain and veta

Price

**Sold****Item Reference: SA1134604****Date of manufacture: 1930**

## Description

Silver Cyma pocket watch, chain and veta. The watch has a Swiss 15-jewel, 3 adjustments, stem-winding movement, identified as by Cyma, which is working nicely. The movement is protected by an inner hinged cover. The case is silver and there are hallmarks inside both of the case backs for Birmingham 1936, with a maker's mark for the English case maker Aaron Dennison. The front and sides of the case are in good condition, the case back has some unevenness. The glass lens is in good condition. The dial is in good condition with blued steel hands, a subsidiary seconds dial and outer minute markers. A little marking to the sub dial but not too detrimental. The watch comes with a double albert with each length of chain measuring 23cm long including the T-bar and the clasp. The chain is hallmarked on the T-bar, clasps and all the links although the date letter is quite rubbed and difficult to read. Also included is a silver veta, 37mm x 27mm, hallmarked for 1896, with initials to the front. Also a silver fob with rose gold wash detail to the front, initials to the front and a 1911 inscription to the reverse. The watch and chain come in a new presentation box.
