Description

Incredibly fine and with beautiful colours, including a deep mahogany field colour, this very rare Turkoman is fresh out of a painstakingly assembled collection from the British countryside. Each of the following pieces was selected for its outstanding qualities and while there may seem to be a lot here, it took years, if not decades to put the group together. Start your collection with this very reasonably priced artwork... Some moth damage, see pictures. Circa 1825-50 4'3" x 1'4"
