Description

Antique Cyma half hunter pocket watch. The watch has a good quality calibre 998 stem-winding movement, 15-jewels, 3 adjustments, which is working nicely. The movement is fully signed and it is all protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold plated Star model from the English watch case maker Aaron Dennison, and it is in lovely condition. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in good condition. The signed dial is in superb condition with original blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
