Description

Gents silver Longines wrist watch, 1929. The watch has a calibre 13.34 15-jewel hand-winding movement which is working nicely. The movement is signed with the Longines name, together with the Baume & Co mark, importers of Longines watches to the UK and the Commonwealth. The movement is protected by an inner hinged cover. The watch measures 34.5mm diameter excluding the winding crown and the lugs. The case is silver and there are hallmarks inside both of the case backs for London (import mark), 1929, together with the sponsor's mark for Arthur Baume of Baume & Co. The case is in good condition, just a slight indentation to the hinged back but nothing serious at all. The lens has a couple of minor marks, again nothing too serious. The dial has a couple of hairlines although they are fairly faint. A later leather strap has been fitted. The watch comes in a new presentation box.
