Height = 4.8 cm (1.9")

Width = 4.1 cm (1.6")

Depth = 1.3 cm (0.5")

Description

A 1966 Breitling Navitimer reference 806 wristwatch, produced for the AOPA. A black dial with calibrated scales surrounding, used as a base speed/time measurement for pilots to perform in flight calculations. The outer rotating 'slide rule' bezel is used as a logarithmic scale to read the measurements, using the dial as the constant. The dial has 3 subsidiary dials, including a subsidiary seconds to 9 o'clock, a 12 hour chrono counter to 6 o'clock and a 30 minute counter to 3 o'clock. The hours and minutes are marked with extended lume batons, with 12 shown separately. The dial is signed with the AOPA logo, showing this watch was supplied to a member of the Aircraft Owners and Pilots Association of America. The stainless steel case is in excellent condition, showing hardly any signs of wear or damage - quite unusual for a watch of this size from this period. The rotating bezel is notched to the edge, designed for tactility during use. Each lug shows a light chamfer to the centre, expanding slightly towards the ends. The watch has original Breitling pushers and winding crown. The snap on case back is marked with 'Stainless Steel, Breitling, 806'. Signed to the inner wit...
