Description

A lovely faded mahogany "Country House Condition" Longcase clock. The case is solid mahogany and is very good quality but is now an attractive faded colour. It is generally in good condition but does have a small amount of cross banding missing from the back edge of the trunk. The 8 day movement strikes the hours on a bell and has a smart, possibly associated, brass dial. To the arch is a dial that should indicate the phase of the moon but this is fixed in position but still looks most attractive. The movement is in working order but is offered as a trade sale, as is and without any guarantee. UK delivery arranged at cost.
