Depth = 0.7 cm (0.3")

Description

A 1925/26 Omega 18K gold wristwatch. A two-tone dial finish with a lightly reflective central rectangular area, surrounded by a matte silver finish to the rest. The minute and hours are marked by black strips in a concentric form, doubled at 12 o'clock. A subsidiary seconds dial to 6 o'clock, with a recessed centre and a counter-balanced seconds hand. Blue steel variants of 'pencil' hands indicate the hours and minutes. A well designed 18K gold case, with a singular hinge to the back. The mechanism and dial are secured to a metal body within the case. An exceptional level of detailed engraving to the case, with scrolled forms and fan sections. The back has rubbed hallmarks to the back, though the outlines can be made out. Case back marked with a reference of 24022. The watch is powered by a 15 jewel, caliber 23.7 S T.2 Omega mechanism. The date of this watch is c1925/6, with a 7.1M serial number giving this approximate date. Case width (excluding crown) 26mm Case height 40mm Case depth (including glass) 7mm From Kembery Antique Clocks Ltd you can expect a genuine wristwatch supplied with a presentation box that is in full working order and sold with 12 months gu...
