Description

A pair of 19th century giltwood mirrors, oval in shape with moulded and beaded frames and plain mirror plates, c1860. The mirrors are a nice size and are ready to hang... Condition: The mirror on the left in the photos has a small area of loss to the moulding in the lower left quarter of the frame, but is otherwise in good condition. The mirror on the right has multiple area of loss/damage to the moulding on the frame, mostly in the top left quarter and the two to four o'clock position on the right. The damaged areas aren't immediately obvious as the colour has been blended in, but can be seen on close inspection. I have tried to show these in the photos. Both mirrors have some minor flaws in the mirror plates which are very difficult to get photos of - these are mainly small blemishes but the right hand mirror has a faint vertical line on the right hand side of the plate. Dimensions: The mirrors have very slight discrepancies in size. One measures 57.2cm tall, 46.8cm wide and 2.3cm deep, the other measures 56.5cm tall, 46.5cm wide and 2.3cm deep.
