## Description

A stunning, fine and impressive pair of antique natural pearl, 0.66 carat diamond and enamel, 9 carat yellow gold and silver set drop earrings; part of our diverse antique jewellery collections. These stunning, fine and impressive antique earrings have been crafted in 9ct yellow gold with silver settings. Each drop earring is embellished with an impressive natural pearl to the centre of a cluster halo design, comprised of eight individually set Dutch cut diamonds. This central cluster design is encompassed with a halo of pearls, bearing four larger pearls to the cardinal points. This feature cluster design supports an impressive articulating claw set Dutch cut diamond. Each earring bears an articulating graduating bracket style frame, supporting a further pearl and diamond cluster design to the nadir; this cluster design reflects the aforementioned halo design. The bracket design is ornamented with three further natural pearls and paralleling hot enamel decorated borders, completing the design. The earrings, for pierced ears, secure to the reverse with a French hook fastening. These earrings have been independently tested using state of the art technology (Niton X...)

Internal Ref: C9184
