Description

A beautiful cased set of six antique solid sterling silver spoons. They are hallmarked with various Chinese makers silver marks (possibly collected individually before being brought together and cased). I would date them to c1920s. They are superbly designed having various Chinese style terminals. They are in superb condition being free from dings splits and repairs. They come with a case, not the original although they fit well. They measure approx. 5 inches (12.6cm) long by 1 inch (2.6cm) wide and have a combined weight of 84 grams excluding the case. Beautifully made interesting examples.
