

SA1139855

1920s Junghans silver pocket watch and chain

Price

Sold**Item Reference: SA1139855****Date of manufacture: 1920**

Description

1920s Junghans silver pocket watch and chain. The watch has a 15 jewel Junghans stem-winding movement which is working nicely. The movement is signed with the Junghans name and it is all protected by an inner gilded cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is 800 with a rose gold wash over the edge of the hinged case back and bezel, this style of case is known as galonne. The case has .800 continental silver mark together with the Junghans stamp. The case back has engine turned detail which is still nice and crisp, surrounding a vacant cartouche. There is some light wear to the rose gold wash on the bezel but otherwise it is in nice condition. The glass lens is in good condition. The dial has a very faint short hairline crack to the outer edge at 11, very difficult to see with the naked eye, but otherwise it is in nice condition. Original hands, a subsidiary seconds dial and outer minute markers. The watch comes with an antique single graduated chain, 35cm long including the T-bar and the clasp, and also a silver fob with rose gold wash detailing. The watch and chain come in a new presentation box.
