Description

A superb set of six German solid 800 silver spoons. They are all hallmarked with the 800 silver standard marks, the German state mark and the makers mark Bruckmann Sohne. I would date them to c1920-1940. They have a very stylish Art Deco design with gilded bowls and handles engraved FS or SF. They are in superb condition being free from dings and repairs. They measure over 4.25 inches (11.1cm) long by over 0.75 inch (2.2cm) wide and combined weigh 80 grams excluding the case. Beautifully made examples.
