Description

Gents Omega bumper automatic wrist watch, 1952. UK POSTAGE ONLY FOR THIS ITEM The watch has a bumper automatic movement, calibre 351, which is working nicely. The movement is fully signed and it has the serial number 13,296,973 which dates it back to 1952. The watch measures 35mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in good condition, just a couple of light scratches to the edge of the screw-on case back. The inside of the case back is signed with the Omega logo, and also has the case reference 2637-4 which is correct for the calibre 351 movement. Omega signed winding crown. The lens has light marking but is very acceptable. The signed dial has some light marking, and a little discolouration around the 3, 6, 9 and 12 batons. A new leather strap has been fitted. The watch comes in a new presentation box.
