Description

A very large, stylish and impressive pair of sterling silver candlesticks made in the Art Deco period. They have a very sleek design and they appear to melt into the surface they sit upon. They have been filled to give them stability when in use. They have detachable sconces to aid with cleaning. Both are fully hallmarked Sterling silver, Birmingham 1934. Unfortunately the makers marks are unreadable. They are in a super condition with no damage, splits or repairs. Free from any denting or deep scratching as they have just been professionally polished. They both stand steady and true. Felt lined bases to protect the furniture. 1751 grams combined weight. 31cm height. 16cm by 12.5cm at base. Please feel free to ask any questions about this item or any of my other items for sale. I offer a full money back guarantee if you are unhappy with your item, if returned within 14 days of receipt.
