Description

This is a beautiful Victorian taxidermy display dome in excellent condition dating from around 1880. The colourful specimens showcased are a green parrotlet, a bee-eater, and a blue-gray tanager, all mounted upon a centrally positioned branch with flowers and foliage above painted simulated groundwork. The birds are very artistically displayed and enclosed beneath the original oval glass dome with original ebonised supporting base. The dome measures 26cm by 13.5cm by 42cm overall height. UK delivery can be arranged with our trusted courier and costs £55 plus vat to most areas.
