Width = 3.5 cm (1.4")

Depth = 9 cm (3.5")

Description

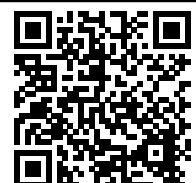

A beautiful early 19th century Scottish agate and silver ram's horn snuff mull. This unmarked snuff mull was probably made in Scotland around 1830 given its style. The agate is a rare caramel coloured calcite in perfect condition. The intricately cast mount is unmarked but has tested as silver and also is in excellent condition. Overall this mull is in excellent used condition with a good tight hinge. The horn is very tactile and has a lovely curl on the tail. WEIGHT; 52grams or 1.7 ozst approx. Free delivery in the UK. Payment by bank transfer, card over the phone, PayPal or Klarna. Using Klarna payments can be split over three months.
