Description

Antique Waltham pocket watch, 1913. The watch has a grade 825 17-jewel stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 18,933,775 which dates it back to 1913. The watch measures 55mm diameter excluding the winding stem and the loop. The case is nickel and it is in lovely condition. Screw-on bezel and back. The watch has a glass lens to the front and back so that the movement can be viewed. Both lenses are in lovely condition. The signed dial is in lovely condition, perhaps just a light scratch between 12 and 1 but it is faint, even with a jeweller's loupe. The watch comes in a new presentation box.
