Description

1930s pocket watch and chain. The watch has a good quality 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has some short scratches where it has been opened in the past. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold filled Moon model from the Dennison Watch Case Company. The case is in good condition, just light marking to the back. The watch has a glass lens which has light marking but not too detrimental. The dial is in lovely condition with original blued steel hands. The watch comes with a chain, 33cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
