Description

One of the prettiest corner washstands that we have seen. In order to keep the piece entirely original we have made a top out of period timber which sits on the top of the stand and so it can be used as a little corner table. It would sit very prettily in any corner and the legs do not splay out far so it is a particularly well designed piece. Height to top of gallery 101cm. Height to top of table top 84cm. Distance from corner to front edge along the side (where it would fit against a wall) 41cm.
