

SA1146681

Gents 1950s wrist watch

Price

Sold**Item Reference: SA1146681****Date of manufacture: 1950**

Description

Gents 1950s wrist watch. The watch has a Swiss hand-winding movement which is working nicely. The watch measures 32.5mm diameter excluding the winding crown and the handsome shaped lugs. The case is chromium plated while the screw-on case back is stainless steel. There is some plate loss but it still has a really charming appearance on the wrist. The case back states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. The later lens is in lovely condition. The dial is in its original finish with feuille shaped hands in a blued steel finish, a subsidiary seconds dial and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
