Description

A small crystal glass chandelier dating from the early 20th Century. It has cut glass droplets arranged in a basket from a gilt metal frame with additional drops on stems around the top. The chandelier is suspended by three chains and a hook designed to be hung on a ceiling rose with a flex hanging down inside the bowl. It is in good condition for its age and all drops are present. There are some signs of age and use, a few minor damages and small chips but nothing detrimental and overall it displays well. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK Delivery £15
