Description

Gents jumbo Omega Seamaster automatic wrist watch. UK POSTAGE ONLY FOR THIS ITEM The watch has a 20 jewel calibre 501 automatic movement which is working nicely. The movement is fully signed and it has the serial number 15,832,398 which dates it back to 1956. The watch measures 36mm diameter excluding the Omega winding crown and the lugs. The case is gold capped which means a generous layer of 14k gold has been applied to the front and sides of the case and the bezel is solid 14k gold. It was said that the gold capping was so thick that it could hold its shape when not fitted to the case and apparently the salesman used to carry a sample of just the gold capping to demonstrate how strong it was. The case is in good condition, just light marking but nothing too serious at all. The case back is signed with the Seamaster name, and it also states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. General light surface marking. The inside of the case back has the Omega logo and the case reference 2857-2856 which is correct for the calibre 501. The lens is in good condition. The signed dial is in its original...
