An Antique Travelling Microscope - botanical

Price

Sold

Item Reference: SA1147572

Date of manufacture: 19th Century

Description

An antique English botanical microscope. These were popular in the 19th century and were taken day trips and examining flowers, insects etc. The small 19thC botanist's lacquered brass microscope comes in a box. The microscope completely folds away. When in use, it screws onto the lid of the box. It has several lenses, a brass live box (for insects, flowers, seeds etc!), bone disc, a small magnifying glass and tweezers. The box measures 14cm w x 11cm d x 5cm h.
