Depth = 10 cm (3.9")

Description

A top quality Victorian solid golden oak cased sea-coast stick barometer in superb original condition, fully serviced and working c.1840. The slim oak case with moulded cornice and carved leaf design crest to the top, plus carved scroll mounts below the cornice and barometer window. Decorative carved cistern cover with small apron to the base. Angled plates displaying the pressure and weather predictions either side of the broad mercury action stick barometer tube (larger size for improved accuracy and often used in coastal areas by seafarers). Twin vernier markers for daily weather readings with remote adjuster. Matching scale to the original mercury action thermometer sat to the centre of the trunk. Bears the makers name for Edward & Gabriel Davis, Leeds; opticians and makers of barometers and hygrometers from 1826 to 1847. This example presented in superb original condition, fully serviced and working. Keep up to date via Instagram - sturmansantiques. Measures 43" long x 8.5" wide at the cornice x 4" maximum depth. Delivery for this item is £45.00 for mainland UK. Please contact us for delivery abroad.
