Description

Would you believe this Omega is over 80 years old? This stunning 1940s Omega manual wind watch is a rare gem that pairs timeless style with enduring mechanical reliability. Fresh from a recent full service, it's running strong at +/- 4 seconds per day – a true testament to the legendary Calibre 30T2 movement. Key Features: Movement: Omega 30T2 manual wind – serviced and precise Case Size: 36mm – large for the era, with slim profile Case Material: Gold-plated stainless steel Dial: Aged champagne tone with natural patina Hour Markers: Bold black Arabic numerals Subdial: Small seconds at 6 o'clock Strap: New brown leather strap with buckle Crown: Later service crown Crystal: Acrylic (vintage-style) Year: Circa 1944 Water Resistance: Not waterproof Our View: "Ticks just about every box." Vintage Omega watches are more than timekeepers – they're mechanical history. This piece balances authenticity, wearability, and condition with an unbeatable patina and legendary internals. A true vintage Omega you'll be proud to wear or collect.
