Description

A pair of 19th Century Staffordshire greyhounds. Both are modelled standing and holding a hare in their mouths. They are stood on white bases with clumps of naturalistic grass and a gilt border. There are slight differences between the two as they were all hand made and hand decorated but they sit together well as a pair. They are good quality and in good condition for their age. There are typical minor flaws, a small firing crack above one foot and a couple of small chips around the bases and the top of one ear but no major damages and they display very nicely. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK Delivery £10
