Date of manufacture: 19th Century

Description

A monumental 19th century Chinese bronze censer, possibly earlier. Substantial size and weight (height 23.5 cm, width across handles 39 cm, diameter without handles 32 cm, weight 5059g). Robust tripod form, decorated with bold relief dragons and auspicious motifs, and featuring impressive mask handles. The bronze shows a deep natural patina consistent with age. Condition: The vessel has several small holes to the undersides of the feet, likely due to wear of the bronze over time. Otherwise in good original condition for its age, with minor surface marks and wear consistent with long use. Please study the accompanying photographs carefully as they form an integral part of this description. If you have any questions, we will be happy to answer them. The item will be shipped with full tracking and insurance. It is important to note that shipping costs include labour, packaging and postage.
