Description

A beautiful solid silver Indian tea caddy canister box. It is unmarked but tests as high grade silver. I would date it to c1900-1920. It has been beautifully hand made embossed and chased with village scenes and animals. It is in superb condition being free from dings splits holes and repairs. It measures 3.5 inches (9cm) tall by 3.25 inches (8.2cm) across the lid and weighs 140 grams. A superbly designed high quality example.
