Description

MASSIVE Antique Victorian Oak Carved Barometer & Thermometer : Carved with Birds PLEASE VIEW OUR LARGE EBAY SHOP ALL OUR CONTACT INFORMATION IS LISTED UNDER 'BUSINESS SELLER INFORMATION' DESCRIPTION: This wonderful carved oak barometer and thermometer which is of massive proportions measuring 35 inches wide making this a very impressive piece. The barometer case has been carved beautifully to give the most stunning effect of scrollwork, leaves and birds as can be seen from the photographs. The case is superb quality and is approximately 35 inches (89 cm) wide. The silvered dial to this is beautifully marked with the weather conditions with red lettering at the start of each word and a lovely pattern to the centre of the dial. There is a blued steel finger and brass finger to mark the change in weather. There is also a curved thermometer marked in Fahrenheit to the base of the dial. Also over the dial is a lovely piece of beveled glass in a brass bezel which sets it off beautifully. DIMENSIONS: The approximate dimensions are : 35 inches (89 cm) wide x 4 3/4 inches (12 cm) deep x 11 inches (28 cm) high AGE: The barometer is circa 1900.

CONDITION: The di...
