Description

Antique silver Revue half hunter pocket watch. The watch has a stem-winding movement, identified as by Revue, which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks for Birmingham 1930, with a maker's mark for the Birmingham case manufacturer Aaron Dennison. Overall, the case is in good condition, just a little unevenness to the back but nothing serious at all. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in good condition, as is the dial with original blued steel hands including the special half hunter hour hand so that the time can be read when the front cover is closed. The watch comes in a new presentation box.
