Description

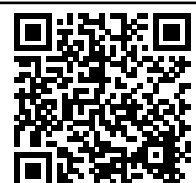

Antique Victorian Large Copper Kettle – 19th Century English Country Charm Embrace the timeless elegance of traditional English craftsmanship with this large 19th-century Victorian copper kettle. With its generously rounded body, graceful gooseneck spout, and beautifully aged patina, this kettle exemplifies utilitarian beauty from a bygone era. The elegant brass handle and finial add a refined contrast to the rich, warm copper tones. Key Features: Era: Victorian, mid-to-late 19th century Material: Hand-hammered copper with brass fittings Design: Large rounded form with classic gooseneck spout and fixed swing handle Height: Approx. 32cm Condition: Good antique condition with age-related dings, surface wear, and rich patina; base shows signs of historic use This type of kettle was commonly used on open hearths or cast iron stoves and now serves as a stunning display piece, bringing rustic warmth to farmhouse kitchens, hearth décor, or antique copper collections. A handsome and functional piece of Victorian heritage—perfect for lovers of classic country style.
