Description

A really handsome pair of early 20th century carved marble urns with stylish swan carving dating from around 1920. The handsome urns depict stylised swans with outstretched wings in the art deco style, to the body of the vase and also to the decorative bases. These are a fine pair, very rare to find in solid hand carved marble. Good condition, nicely weathered (one swan head to back of base absent as shown photo 9) The urns measure 50cm diameter by 54cm high. UK delivery can be arranged with our trusted furniture courier and costs £70 plus vat to most destinations.
