Description

This antique 9ct Gold heart padlock pendant is just beautiful! Made entirely from solid 9ct Gold, you can easily add this piece to a chain, bracelet, or split ring for the perfect antique finish. During the Edwardian period, padlocks were worn on bracelets by women whose significant others were leaving for an extended period of time. The bracelet would be locked onto the woman's wrist by the padlock charm, to which only her beloved would have the key- he would then open it upon his return. The padlock is in excellent working order and would look great on a chain or bracelet. METAL 9ct Gold MEASUREMENTS Measures 2.4cm x 1.5cm WEIGHT 3.89 grams HALLMARKS J.G&S, 9C CONDITION This antique 9ct Gold heart padlock pendant is in very good condition. It remains smooth with a crisp and clear hallmark on the reverse. The padlock handle opens and clicks securely shut, with light surface wear on the front and back. This would make a superb gift for a loved one or a perfect addition to your antique jewellery collection.
