Description

An original Royal Automobile Club radiator car mascot. The centre has an enamel Union Jack flag and below this is the serial / member number "N39428". The reverse is stamped with the maker's name "Collins London" and the threaded bolt comes with its original nut. It is in good condition for its age. There is some damage to a small patch on the enamel flag (see photo) and some minor surface marks and light signs of wear / tarnishing as can only be expected but overall it displays well and could certainly be used. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK Delivery £6
