Description

Antique Omega pocket watch, 1916. The watch has a high grade 17-jewel calibre 19L BSPN stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 5,823,769 which dates it back to 1916. The movement hinges out of the front of the case. The watch measures 52mm diameter excluding the winding stem and the loop. The case is nickel and it is in good condition with just general light surface marks, nothing serious at all. The inside of the case back has various service or pawn broker references and some scratches, and it also has the Omega logo. The acrylic lens is in good condition. The signed dial is in beautiful condition with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
