Dimensions

Height = 18 cm (7.1")

Width = 32 cm (12.6")

Depth = 10 cm (3.9")

Description

An original theodolite or Surveyor's level dating from the early 20th Century. The Theodolite itself has a gun metal finish and is made from lacquered brass with brass fittings. It is engraved with the maker "No.520. J&W.E Archbutt. 201 Westminster Bridge Road, London". It is a high quality instrument with an extendable telescope, two spirit levels, a large compass and adjustment screws in the base to ensure it is exactly level. It screws into a mount that could then sit atop a tripod. It is in good condition and displays well. The theodolite lenses are undamaged and they focus well with a good range and clarity. There are some small knocks and surface marks and some tarnishing to the brass and wear to the lacquer in places but nothing untoward or detrimental. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK Delivery £10
