Description

A superb hand made solid silver caddy spoon. It is marked SILVER D and tests as high grade silver. I would date it to c1960s. It has been beautifully designed in a Arts & Crafts style being plannished. It is in super condition being free from dings splits distortions and repairs. It measures approx. 3.75 inches (9.2cm) long by 1.5 inches (4cm) wide and weighs 24 grams. A very nice example.
