Description

Large good quality Regency mahogany pedestal partners desk circa 1820. The desk has 9 drawers to one side and cupboards and drawers to the opposing side. The oak lined drawers all have fine brass knobs and are all solid in joints with a key that works some of the locks. The top has a good quality leather insert with gold tooling; it remains in very good condition with some marks associated with use. It has a great colour and grain and is very well proportioned, being a good size (6ft wide x 3ft 6 inches deep) with a knee hole height of 61 cm. The desk comes in three sections for transport and re-assembles easily with no screws or tools required. We can arrange delivery throughout the UK free of charge and can also ship worldwide; please ask for our competitive shipping costs.
