Description

A large and beautiful early silk embroidery from Uzbekistan. Full of movement and articulation as the best Suzani should be. Green stemmed pink flowers are moving exuberantly all over the field and border. The embroidery itself is in excellent condition but there are several small holes to the ground, particularly corners, and the black dye has run here and there. Still a beautiful textile with a huge impact, and is priced according to the condition. 6'3" x 7'5"
