Description

Antique silver Omega full hunter pocket watch, 1925. The watch has a stem-winding movement which is working nicely. The movement is signed with the Omega name, and it has the serial number 4,332,019 which dates it back to 1912. The movement is protected by an inner hinged cover which is signed Omega, and it has images of medals won. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are Swiss 900 silver marks inside all three covers. The inside of the back cover has the initials WA along with the date 1919 scratched into it. Both outer covers have the Omega logo to the inside. There is some unevenness to the case, fairly gentle to the front, more unevenness to the back. The winding crown pushes in to open the front cover. Inside, there is a glass lens which is in lovely condition. The signed dial has blued steel hands, a subsidiary seconds dial and outer minute track with red 24 hour numbers. There is some damage to the edge of the dial, just underneath number 8. The watch comes in a new presentation box.
