Description

This is an exceptional quality late 18th, early 19th century Italian circular tilt top table. The top is made from solid walnut and is a butterfly cut piece meaning the grain is mirrored which is a stunning detail. The base is well carved with flourishes and fruit. The top tilts and sits level which is then held in place by walnut timber pegs. The patina across the top is fabulous and the the character is why I fell in love with it. Ideal as a hall table or small dining table. Height 144cm (Tilted) H 77cm (Flat) Diameter 126cm Price includes UK mainland delivery
