Description

This is the best quality and most original 18th century Spanish table I have had the pleasure to own. The patina over ever surface is stunning and the diamond detail along the top is a design I have never seen before and looks to be walnut inlaid into the elm top. A true sign of quality. The size is neat but remains practical as a writing table or a large console. The drawer is smooth running and closes flush. The shaped front rail also adds to the incredible design of this piece.
