## Description

Antique silver Eterna pocket watch, 1927. The watch has a stem-winding movement, identified as probably being by Eterna, which is working nicely. The movement is protected by an inner hinged cover. The watch measures 49mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the case backs for Glasgow 1918. The front of the case is in good condition, a couple of very small marks to the side, and some unevenness to the hinged case back. The glass lens is in good condition, just minor marking. The dial is in lovely condition with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
