Description

Gents 9ct gold Longines wrist watch, 1943. UK POSTAGE ONLY FOR THIS ITEM The watch has a 15-jewel in-house calibre 12.68Z hand-winding movement which is working nicely. The movement is signed with the Longines name, and it has the serial number 6,694,984 which dates it back to 1943. The 12.68Z movement came into production in the late 1930s, and was in use until the late 1950s. The watch measures 30mm wide excluding the later winding crown, and 30mm high excluding the lugs. Although originally designed as a man's watch, it would suit a slimmer wrist. The case is 9 carat gold and there are hallmarks inside the case back for Chester 1943, together with the case maker's name of Stolkace and the initials GAS for George Arnold Stoll of the Elite Bracelet Manufacturing Co Ltd who registered the Stolkace name in 1934. The case is in good condition for such an early piece, a small "ding" to the edge of the lug, and a little unevenness to the back but not too serious at all. The lens is in good condition. The signed enamel dial has a chip to the edge but this is hidden by the bezel, and a short faint hairline at number 4, again mostly covered by the bezel... the dial is sta...
