Description

A striking Chinoiserie coffee table featuring highly decorative relief-raised panels and elegant gilt detailing against a deep black lacquer background. Its low profile and impressive visual presence make it an ideal centrepiece for a principal sitting room, drawing room, or stylish modern interior. The table features intricate traditional landscape scenes rendered in raised relief, beautifully highlighted by hand-painted gold accents that catch the light. The elegant supports and border details complement the central artwork, creating a harmonious and sophisticated design. The piece is in very good condition. The structural frame is solid with tight, firm joints, and the lacquer finish remains bright and clear. It has been carefully cleaned and wax-polished, showing only light, age-appropriate wear that enhances its authentic vintage character. Dimensions: * Length: 133cm * Width: 93cm * Height: 41cm
