Description

This linen press is in good condition. We have professionally stripped and restored it and then waxed it in a lovely antique brown bri wax giving it a stunning patina. It does knockdown into two pieces making it easier to move into a property. The top section is still reasonably quite large so a staircase would need to be straight with no turns. The linen press would look well in an old or modern property amongst similar antique pine furniture for storage of many clothes. It would also look great in a large bedroom. It would also look great in a kitchen for storage of kitchen items. The cupboard stands on original round bun feet supporting the main section. There are four large drawers. The drawers have cock beading around the edge and a wooden knob. The drawers have dovetail joints and are pine lined. Above the drawers the top sits neatly upon the base with two doors. Each door has one panel. There is a key and round turned wooden knobs to the doors. The top has a standard graduated cornice. There are two shelves behind the doors and the shelves are not fixed so you could place more in if needed. The height is 201cm, the width is 139cm and the depth is 60cm.
