Description

Gents 1950s Cyma Triplex wrist watch. The watch has a fully signed 17-jewel hand-winding movement which is working nicely. The watch measures 33mm diameter excluding the winding crown and the lugs. The main body of the case is chrome plated while the case back is stainless steel. There is some surface marking although not too detrimental, and all very acceptable for a 1950s piece. The lens is in lovely condition (some white reflection showing in the photos). The signed dial is in its original finish with original hands, a subsidiary seconds dial and outer minute markers. There is some light freckling across the dial but you have to look closely to see it. A new leather strap has been fitted. The watch comes in a new presentation box.
