

SA1160999**Gents Omega wrist watch,
1939**

Price

Sold**Item Reference: SA1160999****Date of manufacture: 1930**

Description

Gents Omega wrist watch, 1939. The watch has a 15-jewel calibre 26.5 T3 hand-winding movement which is working nicely. The movement is fully signed and it has the serial number 9,319,963 which dates it back to 1939. The watch measures 32mm diameter excluding the winding crown and the lugs. The winding crown is possibly a period replacement. The case is stainless steel. The front and sides are in good condition, just the odd minor mark. The screw-on case back has a few scratches, probably where it has been opened in the past. The case back is signed with the Omega name. It also states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. The lens is in lovely condition. The signed dial is in good original condition with original hands (the minute hand is slightly out of shape). A later leather strap has been fitted. The watch comes in a new presentation box.
