Vintage cultured pearl, jade and gold ring

Price

GBP 320

| USD \$433 | EUR 374

Item Reference: SA1161796

Date of manufacture: 1960

Description

This is an unusual vintage dress ring. It is manufactured from 18ct yellow gold and has a substantial setting and shank depth. The jade is set within an enclosed setting and the pearl which measures approx 9 grains is cupped within a gold mount. The pearl has a beautiful lustre and superb sphere. The two components are asymmetrically set. Jade associated with prosperity and pearl for purity, wealth and wellbeing... There's a lot of symbolism in this rather unusual and dainty ring. Measures as N1/2.

Internal Ref: King/assay/jg
